FIND OUT WHAT GARDEN LIGHTING WILL DO FOR YOU!

Ludeco is a Techmar brand. We focus fully on 12-volt outdoor lighting. Easy to install, easy to expand and energy-efficient. That's because Lightpro lights and accessories are developed on the basis of low voltage (12 volts). So you don't need to bury the cables and our system is guaranteed to be safe for both people and animals.

LUDECO
12 VOLT OUTDOOR LIGHTING

THE 5 BENEFITS OF LUDECO 12 VOLTS OUTDOOR LIGHTING

- Unlike solar, you have outdoor lighting that works all year round
- Most competitively priced outdoor lighting on low volts
- Easy to install due to the unique Ludeco connection system
- Safe for humans and animals
- Very low energy consumption

LUDECO

12 VOLT OUTDOOR LIGHTING

The **Ludeco-12 volt System** is easy to set up by yourself and the cable does not have to be dug 50 cm below the ground (unlike 230 volts), so there is no need for an electrician.

It's this simple:

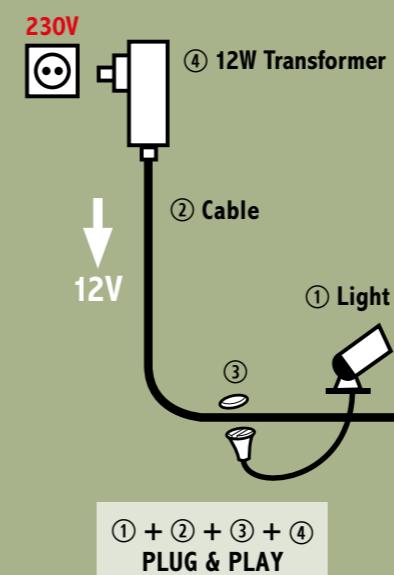

- 1 Place the lights in the garden;
- 2 lay the cable along the lights towards the electrical outlet;
- 3 Connect the lights by sliding the connector already attached to the light cable onto the cable;
- 4 Plug the transformer plug into the electrical outlet.

Ludeco-System

The connector, which is fixed to the light cable, is easy to connect to the main cable.

LUDECO SMART

Download
the app!

Determine the atmosphere in your garden with our Ludeco SMART product line! With the Smart Life app, you easily set timers and control the desired light colour and brightness. The Smart Life app can be used for iOS and Android systems and can be downloaded from the Apple App Store and Google Play.

Our products also work with voice control: with our smart luminaires, you are in control to set the right atmosphere in the garden.

The smart luminaires Stig smart and Ivan smart can be set to millions of colours where you can also control the light intensity yourself!
